

PAD is a condition that raises the risk for heart attack and stroke. It affects 8 to 12 million people in the United States.*

Are you one of them?

Analyze your risk for PAD

- | | | |
|---|---------------------------|--------------------------|
| 1. Do your legs and/or feet ever feel numb? | <input type="radio"/> YES | <input type="radio"/> NO |
| 2. Do you ever have a burning pain in your legs and/or feet? | <input type="radio"/> YES | <input type="radio"/> NO |
| 3. Do your legs hurt, get tired, or cramp when you walk? | <input type="radio"/> YES | <input type="radio"/> NO |
| 4. Do your feet or legs cramp in bed, does standing relieve it? | <input type="radio"/> YES | <input type="radio"/> NO |
| 5. Are your feet always cold in bed at night? | <input type="radio"/> YES | <input type="radio"/> NO |
| 6. Does it hurt when the sheets touch your skin? | <input type="radio"/> YES | <input type="radio"/> NO |
| 7. Do you have sores on your legs or feet that won't heal? | <input type="radio"/> YES | <input type="radio"/> NO |
| 8. Do you think you have neuropathy? | <input type="radio"/> YES | <input type="radio"/> NO |
| 9. Are your symptoms worse at night? | <input type="radio"/> YES | <input type="radio"/> NO |
| 10. Do your feet look blue or purple? | <input type="radio"/> YES | <input type="radio"/> NO |

If you've answered "yes" to 2 or more of these questions, you may have PAD. Be sure to talk to your doctor about these symptoms.

Early recognition leads to early treatment which may lead to a better outcome.
