By signing on this form, I acknowledge receipt of CiC's Patient Rights & Responsibilities and Notice of Privacy Practices (HIPAA), and have been given the opportunity to read it. I understand these policies are available to me by request.

Appointment Policy

Please call by 2:00 pm on the day (Friday for Monday appointment) prior to your scheduled appointment to notify us of any changes or cancellations.

Acknowledgement - Medical Record Request

By signing this form, I hereby authorize CIC to obtain and/or disclose my medical records for medical treatment purposes only to my physician(s), clinic, hospital, or insurance without further written permission for continuation of care.

General Consent and Right to Refuse Treatment

General Consent to Treatment: By signing this form I (or my authorized representative on my behalf) authorize CIC and staff to conduct any diagnostic exams, tests, and procedures and to provide any medications, treatment to effectively assess and maintain my health, and to assess, diagnose and treat my illness or injuries. I understand that it is the responsibility of my individual treating healthcare provider(s) to explain to me the reason(s) for any particular diagnostic examination, test or procedure, the available treatment options and the common risks and benefits associated with these options as well as alternative courses of treatment. Right to Refuse Treatment: In giving my general consent to treatment, I understand that I retain the right to refuse any particular examination, test, procedure, treatment, or medication recommended or deemed medically necessary as prescribed by my referring physician. I also understand that the practice of medicine is not an exact science and that no guarantees have been made to me as the results of my evaluation and/or treatment. Unless otherwise revoked, this authorization will expire in 1 year from date of signature.

Advanced Directives

You have the right to information on CIC's policy regarding Advanced Directives. Advanced Directives will not be honored within the center. In the event of a life- threatening event, emergency medical procedures will be implemented. Patients will be stabilized and transferred to a hospital where the decision to continue or terminate emergency measures can be made by the physician and family. If the patient or patient's representative wants their Advance Directives to be honored, the patient will be offered care at another facility that will comply with their wishes. A Prehospital Medical Care Directive is a document signed by you and your doctor that informs emergency medical technicians (EMTs) or hospital emergency personnel not to resuscitate you. Sometimes this is called a DNR- Do Not Resuscitate. If you have this form, EMTs and other emergency personnel will not use equipment, drugs, or devices to restart your heart or breathing, but they will not withhold medical interventions that are necessary to provide comfort care or to alleviate pain. IMPORTANT: Under Utah law Prehospital Medical Care Directive may have specific state requirements to be valid. If you have any questions, please talk to your physician or anesthesiologist.
